PROFESSIONAL SUMMARY

Results-driven **Zend Certified PHP Engineer (ZCE)** and Senior Full-Stack Developer with **14+ years of experience** architecting, developing, and deploying high-traffic enterprise web applications, e-commerce platforms, and RESTful APIs. Senior Web Developer at **Daffodil Group**, Lead Developer of **itech-bd.com**, and **Top-Rated Freelancer on Upwork** with a **100% Job Success Score** across 37+ international contracts. Highly proficient in **PHP, Laravel, Node.js, Next.js, React, TypeScript, MySQL, and MongoDB**, with active specialization in **AI integration (OpenAI API, RAG architectures, and autonomous agentic workflows)**. Proven track record in technical leadership, agile mentoring, and shipping clean, PSR-compliant, secure software.

CORE TECHNICAL SKILLS

Backend & Frameworks: PHP 8+, Laravel (ZCE Certified), Node.js, Express.js, RESTful APIs, GraphQL, Microservices, MVC Architecture, WebSockets, JWT / Sanctum Auth.

Frontend Stack: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3 / SCSS, Tailwind CSS, Bootstrap, Redux Toolkit, Vite, Three.js.

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis, Database Indexing, Query Optimization, Eloquent ORM.

AI & Emerging Tech: OpenAI API (openai-php/laravel), RAG Systems (Retrieval-Augmented Generation), Agentic Workflows, Vector Embeddings.

DevOps, Tools & CMS: Git, GitHub, Docker, CI/CD Automation, cPanel, Linux / Ubuntu Server, Postman, WordPress (Custom Theme & Plugin Dev), Jira.

Methodologies: PSR Standards, Clean Code, Agile/Scrum, Test-Driven Development (TDD), OWASP Web Security Principles.

PROFESSIONAL WORK EXPERIENCE

Senior Web Developer — Daffodil Group

2017 – Present | Dhaka, Bangladesh

- Architect, build, and maintain mission-critical enterprise web applications and institutional ERP platforms across Daffodil Group's conglomerate ecosystem.
- Engineer scalable backend architectures using Laravel 10+, PHP 8+, and MySQL, serving tens of thousands of daily active students, faculty, and corporate users.
- Design and implement secure RESTful API endpoints for seamless integrations between ERP portals, mobile apps, and payment gateways (SSLCommerz, bKash, Nagad).
- Enforce PSR coding standards, optimize complex database queries, and reduce page response latency by over 35%.
- Lead and mentor agile teams of frontend developers, UI/UX designers, and QA engineers on best coding practices.

Lead Developer & Technical Founder — itech-bd.com

2018 – Present | Dhaka, Bangladesh

- Architected and built **itech-bd.com**, an advanced EdTech & e-learning platform delivering interactive tech education and programming courses.
- Developed end-to-end full-stack platform using Laravel, Next.js, and MySQL with integrated LMS, automated certification, and student subscription billing.
- Configured automated CI/CD deployment pipelines, server security hardening, backup automation, and Redis caching.

Senior Instructor — Web Development (PHP, MERN & Freelancing) — DIPTI AYETS Project

2017 – Present | Dhaka, Bangladesh

- Conduct 30+ hours weekly of technical instruction covering modern PHP, Laravel, JavaScript ES6+, React.js, Node.js, MongoDB, and REST API engineering.
- Designed industry-aligned curricula, hands-on coding labs, and evaluation frameworks for hundreds of aspiring full-stack engineers.
- Mentored students on international freelancing platforms (Upwork, Fiverr), real-world tech interviews, and git-based team workflows.

Full-Stack API Developer (Top Rated — 100% Job Success Score) — Upwork Freelance

2015 – Present | Global Remote

- Maintained an exceptional **100% Job Success Score (JSS)** and **Top-Rated** status across 37+ completed global client projects.
- Delivered custom API backends, SaaS platforms, e-commerce applications, and third-party integrations for clients across North America, Europe, and Asia.
- Engineered custom Laravel and Node.js solutions with JWT authentication, role-based access control (RBAC), and webhook handlers.

Backend Web Developer (Contract) — CodemanBD

2023 – Present | Dhaka, Bangladesh

- Engineered custom REST APIs and database schemas with Laravel and MySQL for training management and student onboarding portals.
- Provided technical guidance to frontend developers on API contracts, response payloads, and data serialization.

Early Career Experience: Customer Care Representative at **Banglalink Digital Communications** (2014) | Executive at **Grameenphone Ltd.** (2009 – 2012) — Enterprise telecom technical support, client account management, and CRM operations.

KEY PROJECTS & SYSTEMS BUILT

itech-bd.com — EdTech & Enterprise Platform Full-featured technical education portal with course LMS, enrollment, and payment integration. Laravel · Next.js · MySQL · PHP	shopbasebd.com — Dropshipping Platform Leading Bangladeshi dropshipping and reselling marketplace with automated inventory & order dispatch. Laravel · REST APIs · MySQL · E-Commerce
rangsemart.com.bd — RANGS eMART Store Official electronics e-commerce store for Rangs Group with product catalog, EMI, and checkout. Laravel · E-Commerce · Payment Gateway · MySQL	tmt.edu.bd — Tamirul Millat Madrasah Institutional educational ERP with digital notice boards, student archives, and exam results. PHP · MySQL · Bootstrap · Student ERP
mpsc.edu.bd — Mohammadpur Preparatory School & college portal featuring online admissions, fee processing, and student records. Laravel · EdTech · School ERP · MySQL	hotel71.com.bd — Hotel 71 Dhaka 3-star boutique hotel web portal with real-time room booking engine and reservation management. PHP · Booking Engine · UI/UX · MySQL
dainikamadershomoy.com — Amader Shomoy High-traffic national daily newspaper delivering real-time news publishing and media feeds. PHP · MySQL · High Traffic · Cache Optimization	thefinancialexpress.com.bd — Financial Express First financial daily of Bangladesh with stock updates, economic archives, and digital e-paper. PHP · Media Portal · High Availability · Responsive
dti.ac / ti.ac — Daffodil Technical Institute BTEB-affiliated polytechnic institute portal with 4-year diploma programs and admissions. Laravel · EdTech · BTEB · MySQL	eminence.edu.bd — Eminence College Academic portal for HSC, BBA, and B.Sc in CSE programs under National University. PHP · EdTech · Daffodil Network · MySQL
codemanbd.com — CodemanBD Academy Freelancing IT training academy portal with student LMS, batch management, and enrollment. WordPress · React · UI/UX · E-Learning	diet.ac — DIET Polytechnic Institute Polytechnic institute portal offering BTEB diploma engineering programs and student services. Laravel · EdTech · Polytechnic ERP · MySQL
myekids.com — My e-Kids Network Children & youth technology education portal teaching coding, robotics, and multimedia. PHP · EdTech · Kids Coding · Daffodil Family	dipti.com.bd — DIPTI Institute Pioneer professional training institute offering government-certified skill development. Laravel · EdTech · Skill Development · MySQL

CERTIFICATIONS & CREDENTIALS

- **Zend Certified PHP Engineer (ZCE)** — *Zend by Perforce* (Dec 2020) — *Industry Gold Standard*
- **Web Design with Freelancing (Level 3)** — *National Skills Development Authority (NSDA)* (Feb 2024)
